NATURAL HISTORY OF VICTORIA.

Locality whence obtained.

Donor's Name.

Remarks.

this Butterfly was always
observed on the blossoms
of the different scrubs
it fly very high

do

during the month
of April

along the Murray
banks in almost any
locality.

caught during the month of
April at the Banks of the
Murray.
caught during the months
of August & September

very rare found on
a blooming scrub in
the Mallee

Orange Is. collected
month of July on a lagoon
about 6 miles from the Murray
near Swan Hill on the
Murrumbidgee river

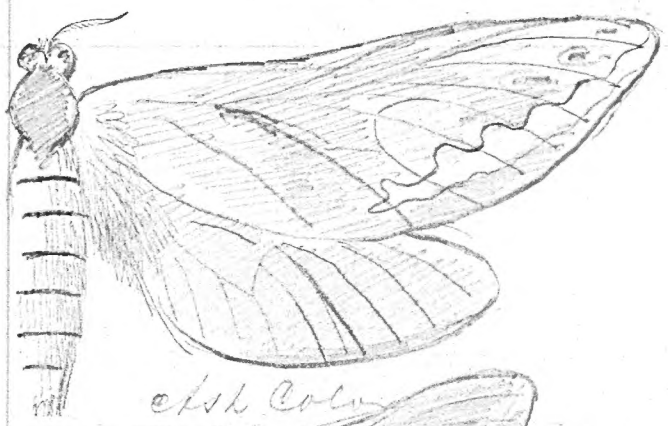

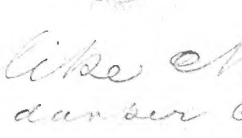

very common
